_____

I've added some new categories under "Haunts" in the Paranormal Agencies area. Just to help identify general region. I've moved the existing listings into the proper areas.

Also I've added a new Category for Psychics and Mediums. If you are a public psychic or medium and you offer your services to the general public, please list yourself in the category by clicking:

I'm hoping we can create one of the most comprehensive lists available on the internet of all things paranormal related.
