Investigation At 15th Century Market (Video)

Posted by techguy32 - 05 Oct 2011 04:06

_____

HI All,

This is a video review of our investigation of a 15th Century Market Hall in Bedfordshire, England.

The video is a 15 min look at some of the kit we use on the night, the investigation then at the end the evidence review.

We caught some amazing EVPs here and even caught two team members having the same personal experience at the same time as they feel something go for their legs under a table.

enjoy ..
