www.facebook.com/pages/Old-Jail-Sheriffs-House/156184524449335 the evp work i am posting come from this location. some of u may remember this jail was used in the Public Enemies movie with Johnny Depp. this is the jail that John Dillenger had escaped.

So these first 2 EVP files are a banging i caught while alone in the jail the rest of the group that night went to outside to have a break so i finished early so i decided to go in and sit and wait. on the second bang i got up and went to get the group so they could hear what i had heard. unfortunatly the banging had ceased and nobody else experienced it.
