

We've Added Calendar Events

Posted by crystalcross - 01 Feb 2011 04:05

We've added another feature. Calendar and events. Why? So that if you know of events in your area you can add the events. Know of an upcoming public event related to Ghosts or Hauntings? Or know about a paranormal investigation and need help? Schedule it on the events calendar.

Plan on conducting a paranormal investigation and want to have a live broadcast from your cell phone? Create an event, and then let us know and we can assist with the tech involved in making it happen.

Registration is required to post events.
