_____

I am hoping to get a Digital Voice Recorder for my Birthday either for myself or from someone. Being a writer too, I might get one to record random thoughts about something I'm writing from someone. To most of my friends and family, ghost hunting is for those who find it interesting to watch "professionsla" do on TV.

After that, I plan on saving for a Canera to shoot pictures, then a video recorder.

Thanks to this site, I also know now where I can get an EMF detector. i would l iek to get one of those as well as I believe I am sensitive to high levels.
