EM pumps

Posted by Ocean County Paranormal Research - 04 Jan 2012 21:36

I recently made an EM pump that we will be trying on our next investigation.

they are pretty basic to make.my question is has anyone ever used one and got

results with it.

---

someone in my chapter has one they made and we used it at a location we never were at before. I did not notice any results from using the device. Only time will tell. Please keep us posted on results.

I'm a bit unsure how I stand on the topic of EM pumps and Static pumps. I'm willing to try one, but from a pure scientific point of view there are so many devices already in your average home or office that act as EM pumps and even Static pumps that I seriously doubt it will make much difference. Now perhaps outdoors, or in an old castle or abandoned property it may.

But just to list a few sources of EM pump or Static pump:

Any Motor - strong EM pump

Cell Phone - strong EM pump

Non-flatscreen TV - strong EM pumpg/strong Static pump

Florescent Light - static pump

Wool/Glass - static pump

Walkie Talkie - EM pump

Power Lines - EM pump

Extension Chord - EM pumpg

That's just a few, and there are many more.
