Hmmm this is the closest I've seen from these pictures of a human figure.

Great Picture.... Just a couple of questions;

what is the light source

what time of day was it taken

where was the picture taken from, i.e. basement, outside, room in building with windows etc...

The mist is outstanding and I would agree this is the closest I have seen to a figure or apporition.

_____

this photo was taken using the water method ITC if you would like more information about this method look up Instrumental transcommunication photography,you will find alot more info on this method than I can supply.Thanks for viewing
