Dibbuk (Dybbuk) Box

_____

Before I start, we all know the dibbuk box is a well known story that has had alot of attention due to the show Paranormal Witness and the movie Possession.

However it seems I can not find a whole lot of information about such an item other than the eBay story from Paranormal witness or that movie. I have looked up Jewish folklore about Dybbuks. It seems they are "unclean" spirits that possess people to seek revenge. Ok so got that part. But I still cannot find anything about a dybbuk "box". So why am I researching this? Well we have been in contact with a client (friend of a close friend) that claims they have one. That they found it when they started renovation on their current home. We go out tomorrow to get the preliminaries done for an investigation and see this claimed "dybbuk box".

Anyway...

Does anyone here know anything about these things?

Our client thought she had one and was afraid it was the source of activity they were experiencing. Since I msde this post it has been determined that the box she had was nothing more than that. A box. There has been no proof of activity surrounding this box even after it was removed at its new location. However the family continues to have very real and very freightening experiences. We do no believe this box has any connection.

I had already gotton the info I needed. Crystalcross very kindly got in touch with Kevin, Who in turn answered what I needed to know via this post an private messages.

That may be the case if It wss infact a haunted item. In this case it is not. The property has other history that may be the cause of the activity. It was at one time a funeral parlor that not only embalmed and preped bodies, but incinerated them as well. There is an incinerator in the basement. They have boxes of personal property left by the funeral palor when it moved to a new location that we belive belonged to former "CLIENTS". .

Not once did I even say activity means bad spirit. The client in this case is in real danger due to physical violence having occured putting one family member in the hospital. So in this case we have a very disgruntaled whaterever in the least.

If you want to leave the site, that is your choice. Posting you photo from your phone should work provided you have an iPhone or an android device.

Any container can be used for storing various things, and can be labelled as one thing or another, but what is important, is what the relevance of it is to an incident or events.

I am not sure why things would be added to it, if it were believed to be a source of a Dybbuk (malicious spirit of one who has passed). Possibly you are a collector of paranormal linked items, but I myself would not mix it with other items.

While I understand you may feel defensive for statements directed towards you, please do not be too quick to assume anything of a website community or those on it, if they disagree or question a statement for further clarification.
